

FINANCE AND TRADE

The Telegraph Market reports in connection with other regular telegraphic matter.

Office of the Louisville Democrat, Thursday Evening, March 11, 1909.

The New York gold market opened today at 130 1/2. The continued quiet in the gold market is the topic of general remark, and a disposition is everywhere manifested to understand a state of things directly contrary to what was anticipated.

The financial Chronicle, of the same date, says:

The triumphal commencement of the improvement drive at Washington had a reassuring effect upon the public mind, and in this way the event may have influenced the decline in the premium.

Stocks in this market are large, as evidenced by a walk through the immense establishments of our dealers, at all of which the "product" smoked and in salted, packed, stacked and hanging, may be seen an extent that would astonish a visitor, what will they do with it?

The market here is quiet, with light offerings, and dealers report transactions at about the following quotations:

In the local money market there are no new features to note. The bank report a moderate demand for money, and regular customers find no difficulty in obtaining the necessary accommodations.

In the outside market considerable paper is offering, of various grades, which is negotiated at rates to suit the views of those who take it.

Exchange is dull and heavy, all grades having prevailed for several days, viz: to 1/2 off buying and from 1-10 discount on par selling.

In local stocks we have no changes to report, and the column of quotations is corrected by Thomas and William Mallon, over Citizens' Bank, and may be relied upon as fairly representing the market.

REMARKS.—There is little difference of opinion in regard to the absolute necessity for the removal of the tariff on at least, the protests of the people have reached the leaders of Congress, and as a consequence a bill has passed the lower house almost unanimously, and with doubtless becoming a law.

REMARKS.—The market was a shade firmer today. We quote cotton at 13 1/2; cottonseed at 13 1/2; corn at 13 1/2; wheat at 13 1/2; and so on.

REMARKS.—The market is steady at 13 1/2. We quote cotton at 13 1/2; cottonseed at 13 1/2; corn at 13 1/2; wheat at 13 1/2; and so on.

REMARKS.—The market is steady at 13 1/2. We quote cotton at 13 1/2; cottonseed at 13 1/2; corn at 13 1/2; wheat at 13 1/2; and so on.

REMARKS.—The market is steady at 13 1/2. We quote cotton at 13 1/2; cottonseed at 13 1/2; corn at 13 1/2; wheat at 13 1/2; and so on.

REMARKS.—The market is steady at 13 1/2. We quote cotton at 13 1/2; cottonseed at 13 1/2; corn at 13 1/2; wheat at 13 1/2; and so on.
